

Long Island Woodturner's Association

February 2004

Long Island Woodturners Association

Long Island Woodturners Association is a chapter of the American Association of Woodturners. Our purpose is to foster a wider interest and appreciation of woodturning on Long Island and in the metropolitan area. We meet the third Saturday each month at 9:00 AM - Noon at BOCES, Wilson Tech Campus in Dix Hills. See the calendar of scheduled meetings for 2004 in our current club newsletter.

Take the LIE to Exit 51 (Deer Park Avenue). Go East on the service road 1 block to Westminster Avenue and turn right. Proceed onto BOCES, Wilson Tech Campus and go to building "D".

Our Club 2004 officers are:

President – **Carl Saenger** - (631)423-7624
Vice President— **Martin Rost** - (631)277-7363
Treasurer **Joe DeMaio** - (516) 766-5189
Secretary/Newsletter- **Ken Deaner** - (516) 239-7257
Our monthly programs are organized by **Joel Rakower** - (631) 462-1186

The Club offers a wide range of opportunities for its members to improve their turning techniques and enjoy the company of other turners. There are demonstrations by Club members at our meetings. Renown guest turners do 6 hour workshops several times during the year at a nominal charge to club members. A free video and text library is available for their use. Members are invited to participate in our monthly wood raffle. All are encouraged to bring samples of recent work to our "SHOW & TELL" and become active participants. The Club participates in the activities of the American Association of Woodturners and encourages its members to join. Many members attend their yearly symposium.

Visit our Club's web-site and meet our members at www.liwoodturners.com. Our site is maintained by **Peter Ward** wazer@optonline.net

Demonstration

Jim Dimond is a past president of the LIWA and can always be called upon in a pinch to demonstrate. **Bob Brady** was scheduled for this meeting but unfortunately broke his ankle and was unable to stand comfortably at the lathe. Jim stepped in and did a fine demo that focused on design and shape. Many members commented that Jim's demo was on the mark. They will think more about the forms they are making as they hone their turning skills. .

Many Thanks

Bob Fentress and **Doug Ruggiero** built a fine cabinet to house our mini-lathe. Thanks to both of these dedicated LIWA members. All of our lathes, books, videos and tools are secure as a result of the contributions of members like Bob and Doug.

Martin Rost and **Marty Mandelbaum** did an excellent job in taking notes at the February meeting so that I could publish the Newsletter. Thanks!
